

Barrel Clamp

Barrel Clamps - Known as "Barrel Clamp", this particular hydraulic attachment is used on lift trucks to compress objects which you need to move utilizing the forklift. Usually, they are used so as to barrels, handle kegs, and paper rolls, along with a few barrel clamp designs having the ability to revolve the cargo. For example, the revolving function permits the individual operating the forklift to be able to put in a vertically stored paper into the horizontal intake of a printing press.
