

TCM Forklift Parts

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each global business. Transporting industrial goods occurs each day on our busy planet. Initially innovated as industrial vehicles in the 1930s in the United States, forklifts gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread worldwide.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Through the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes numerous models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products used and recognized all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
