

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those operating in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 individual parts intended for 20 unique brands of forklifts and automated equipment. Your regional Clark Seller is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark features a phenomenal Parts Supply team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's relentless mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the extremely economical and beneficial structure of "Lean Production" for its assembly plants and use of resources. This structure was established to acknowledge the most efficient approaches of production plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the proficiency and excellence of their merchandise while minimizing costs. The new value engineering agenda combines progressive product improvement and provides superior consumer support and service within the industry.
