

Forklift Electrical Part

Forklift Electrical Part - Lift trucks can be specifically marked to be utilized in unsafe places. A marked truck indicates the design has met the minimum standards of ANSI/UL 558 for engine powered trucks or ANSI/UL 583 intended for electric forklifts for the type of label placed.

The application for labels used for lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for further info about the permitted uses of industrial powered forklifts in your application.

If the forklift has been proven to satisfy the outlined criteria, the following labels could be put. A marked truck will have the model description placed on the lift truck nameplate and will have one of the following labels attached.
