

Meritor Part

Meritor Part - Meritor is a leading global supplier which is proudly founded on a 100 year tradition of service and quality. They focus on various integrated systems, modules and components to original equipment manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the international operations. The business values all their clients and wishes to ensure their success while anticipating their various needs. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in just hiring future focused employees. These top-caliber individuals could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required so as to get results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all their workers different possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

They have their supplier network which is specifically located to support the growth of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business methods and implement lean techniques.
